Driver Project (History)

Ancient Civilisations

What is this about?

This project teaches children about the history of two of the world's first ancient civilisations: Ancient Sumer and Ancient Egypt. Children will learn about the rise, life, achievements and eventual end of each civilisation.

Why is this relevant to us?

This helps us develop an early understanding of how the past has shaped the world we live in today. By learning about Ancient Sumer and Ancient Egypt, we can build chronological awareness beyond living memory and begin to recognise similarities and differences between past societies and our own lives. Studying early civilisations gives us a strong foundation for future historical learning and helps us understand the importance of communities, innovation and change over time.
