Project (History)

Greeks: A Lasting Legacy

What is this about?

In this project, children will discover how Ancient Greece, especially Athens during the Classical period, shaped the world. They will learn about Greek city states and explore evidence of life in Athens, including the development of democracy, philosophy, architecture, and theatre. Through historical sources, drama, and discussion, they will build their knowledge before debating which Athenian gift has had the greatest influence today.

Why is this relevant to us?

Many aspects of modern life can be traced back to Ancient Greece. By exploring democracy, education, theatre, philosophy and architecture, pupils will develop an understanding of how past societies have shaped the world they live in today. The project also encourages critical thinking, discussion and debate, helping children to become informed, reflective and active citizens.
