Staff Use of AI Acceptable Use Agreement

Artificial Intelligence (AI) and Emerging Technologies Staff (and Volunteer) Acceptable Use Agreement

School Policy

Emerging technologies, including Artificial Intelligence (AI), are increasingly integrated into educational settings and the lives of staff and learners. These technologies have immense potential to enhance creativity, promote personalized learning, and improve operational efficiency. However, their use also presents risks that require clear policies and practices to ensure safety, security, and ethical application.

This acceptable use policy aims to ensure:

- Staff and volunteers are responsible users of AI and emerging technologies, prioritising safety and ethical considerations.
- School systems and users are protected from misuse or harm resulting from the use of AI.
- Staff have a clear understanding of their responsibilities when engaging with AI and emerging technologies in professional and personal contexts.

Acceptable Use Policy Agreement

I understand that I must use AI and emerging technologies responsibly to minimise the risk to the safety, privacy, or security of the school community and its systems. I acknowledge the potential of these technologies for enhancing learning and will endeavour to integrate them in a way that aligns with the school's policy, ethos and values.

Approved AI Platform

To ensure security, privacy and data protection, the only AI platform approved for use within the school is: Microsoft Co-Pilot. No other AI tools or services may be used by staff or pupils for school-related activities without prior approval from the Headteacher and Senior Leadership Team.

- I will ensure that any sensitive or personally identifiable information about staff, students, or parents/carers is only entered into AI systems that have explicit approval and robust security measures in place.
- I will report any AI-related incidents or anomalies that could indicate misuse, bias, or harm to the appropriate person immediately.
